

Scholarly Communications

HKUST Library

Open Access : **Your choice to increase your** **research visibility and impact**

~ 23rd October 2014 ~

What is Open Access?

Open access (OA) can be defined as the free online access to peer-reviewed scholarly publications including journal articles, books, book chapters, ... etc. It should be free of charge, and free of most copyright and licensing restrictions.

Sharing as an OA journal editor and OA author

Prof. Yung Hou WONG

(Chair Professor & Associate Dean of School of Science, HKUST)

at degrees:

which are granted by **licensing bodies**

Author can provide open access to the publication in different

1. Self-archive it in an **open access repository** (Green OA)
2. Publish it in **an open access journal** (Green OA)
3. Publish it in a traditional journal by taking the OA option with charges (Gold OA)
